Principal's Message- BE WELL!

Welcome to March! It is a great time to assess your child's progress this year. With parent-teacher conferences and progress reports right around the corner, it is also a great time to revisit your home routines to ensure consistency with bedtime, nutritious meals, and rich conversations with a growth mindset.

More than ever, it is important to talk about how your child is doing, feeling about school, and progressing. Together, we will work to build their success. As spring approaches, here are a couple of items you might consider to encourage your child's success in/at school:

Bedtime Routines and Nutrition: It is easy to 'want' to stay up later at night and skip meals if we are excited to play outdoors. ***Ensuring that bedtime routines and balanced nutrition add to your child's health is essential with daylight changing.*** If you are looking for any information on parenting routines at home, please contact Mrs. Stacie Erion, our Family School Liaison Counselor, who has many helpful resources that can help!

Physical Activity: ***Health and wellness are imperative to learning.*** As the weather changes, please take the time to get outside and play. A family walk, park time, or visiting Bower Ponds - will add value to your child's physical strength and mental well-being. Research shows that time in nature and physical play will enhance our wellness and overall resilience. As part of our Comprehensive School Health Program, we host daily physical literacy classes with various activities in which your child can participate. This lays the foundation for daily learning, focus, and health during the school day. I invite you to do the same as a family. Make it a fun springtime goal!

Digital Citizenship: ***Regarding citizenship online, are you monitoring your child's time?*** Is this screen time affecting their in-person interactions with others? Remember, the balance between games and screens is best. Your child's brain is growing, and the quality of the information they are witnessing online and in popular games may be fun, yet, at the same time, it may affect their ability to focus, rest, learn, and engage in/on learning. **In Alberta, we are required to teach our students about digital citizenship.** All students need digital citizenship skills to participate fully in their communities and make smart and safe choices online.

Thank you for taking the time this spring to attend parent-teacher conferences. We would like 100% of our families to participate on March 13th. A link will be sent to select a time for your conference, or a time that has been scheduled will be provided! If something arises in your schedule and you want to reschedule, please contact your child's teacher directly.

Yours in Learning,
Teresa Tataryn, Principal
